

Alison Ives Bio

I am a Biochemist by training and have been in the healthcare industry for over 20 years and am currently Vice President R&D for Perrigo's Consumer Self-Care Americas division. I am British and moved to West Michigan in 2021 with my family to step into this exciting opportunity to drive Perrigo's Self-Care Innovation goals. I have been with Perrigo (and Omega Pharma) for 9 years, where I was previously building and leading a Regulatory Affairs function in our Consumer Self-Care Europe / International division. Prior to this I spent 11 years with AstraZeneca in a variety of regional and global leadership roles within the Scientific Office, including sitting on New Product Development Teams across five therapeutic areas. I have a passion for improving people's lives and have the great privilege to be able to fuel that passion every day with Perrigo.
